Gasil® HP860 is a fine particle, high performance, organically treated silica gel specifically designed as an effective matting agent for solvent based coatings such as wood flooring and furniture.

Gasil® HP860 provides excellent matting efficiency and its organic treatment is resistant to solvent stripping.

Gasil® HP860 Benefits:

- Optimal matting efficiency from ultra high pore volume and controlled particle size distribution
- Product consistency
- Suitable in acetone rich systems
- Ease of dispersion
- Film clarity
- Raw material cost savings

Gasil® HP860 Storage & Handling:

Store the product in unopened bags in a dry place with temperatures between 35°F and 95°F. Handle sensibly to minimize creation of dust and build up of static electricity. Product is amorphous (no crystalline silica). Please consult the MSDS available on request.

Packaging:

Gasil® HP860 is available in 15 kilogram bags.
